VISITORS, please inform a staff member if you have signs or symptoms of any respiratory infection. In addition, please adhere to the following:

**Cover:**
- Use a tissue or the crook of the elbow during a cough or a sneeze.
- Despite covering during coughs and sneezes, sit at least 3 feet away from other people.
- Dispose of used tissues or wash unclean clothing as soon as possible.

**Wash:**
Wash all objects and clothing that could have been contaminated with the associated respiratory infection.
Wash hands by performing effective hand hygiene:
  - Wash with warm water and soap
  - OR use an alcohol based hand sanitizer
  - OR use an antiseptic hand wash

**Wear:**
Wear a mask to minimize the distance that secretions may travel. Wear a mask as much as possible and not just during a cough or sneeze. Dispose of the mask after use.

**Alert:**
Alert a staff member if you have signs or symptoms of any respiratory infection. Suggest adhering to certain precautions from the Standard Precautions (i.e. Droplet Precautions, Contact Precautions, Airborne Precautions, etc.)
